Georgia State University Policy

2.10.15 Student Computer Access

Policy Summary

All students must have access to a computer, and any course offered at Georgia State University may require computer-based work. It is the responsibility of students to ensure their access to computers.

Full Policy Text

All students must have access to a computer, and any course offered at Georgia State University may require computer-based work. It is the responsibility of students to ensure their access to computers. Departments and other units may establish minimum machine and software requirements, including the requirement to own a computer, for students in their degree programs.

Administration of Policy

Mandating Authority: University Senate
Responsible Office(s): Enrollment Services
Responsible Executive(s):

Policy History

Approving Body: Administrative Council

Rationale or Purpose

Computer literacy and appropriate use of information technology is a central component of current academic policies. This policy does not require all students to own computers since the open access labs will provide the necessary basic capabilities.

Additional Information

Computer Configuration. Computers that students have access to must provide access to e-mail accounts, the World Wide Web using a current browser, spreadsheet capability and word processing. Departments and other units may establish minimum equipment and software requirements.
Approved by Administrative Council January 2003
